These measurements should be taken off an existing pair of trousers that have the fit you would like duplicated.

Please state if you have measured off the body, otherwise you will have very tight trousers!

- A Waist, measure existing waistband firmly with the zip closed and button done up.
- B Measure widest part of hips
- C Thigh, widest part, ie top of leg under crutch
- D Inside leg, measure from top of crutch to floor
- E Outside leg, measure from under waistband to the floor
DO NOT INCLUDE WAISTBAND IN MEASUREMENT
- F From under the waistband at the top of the zip to the crutch seam (this is the seam that joins the front of your trousers to the back of your trousers, between your legs)
- G From under the waistband at the back to the crutch seam (this is the seam that joins the back to the front of your trousers between your legs)
