

Re Robertsons secret 2-10 acre agreement which proves Lockhart was well acquainted with my PROPERTY & this secret 2-10 acre block agreement in which the Anglican Trust were naming themselves vendors of my property when I still owned it. This is proved by clause 16 (please see) they said they were going to sell - 10 acre blocks off my farm for \$5,000. They never had any intention of selling them FOR \$5,000 FAR TOO VALUABLE AND they were the cream of my property AS IT WERE for the eye and the most valuable art, and worth no less than (THESE 2 BLOCKS) (FULLY APPROVED 400,000. contained a motel AND CARAVAN PARK) and a hot water bore and a hot water COOEE OF AUCKLAND STANDING LIKE THIS WITHIN THE 2 acres - looked the sea, the 2 title & Purchase Agreements were only a sham and neither are equal documents - no one needs

to be a legal expert to reach this conclusion. Please the back page of this Agreement whereby the Anglican Trust voluntarily agreed to pay Robertson the \$10,000. There was no threat of legal action as Jenkins has stated. Please see the back page of this Agreement with the signature of both Lockhart and Robertson (a bankrupt at the time) who executed the Agreement. Lockhart has persistently denied taking part in the sale of my farm IN THIS MATTER deliberately telling Jackson Russell himself and the firm of practice and Junko & West skulluggery in my affairs. For senior Lockhart to be even associated with the likes of Robertson is horrendous-enough said. Lockhart must know of Robertson's horrific record of dishonesty as he took part with this Bankrupt Bon Man in the Fraudulent Company "Keep us + + + + + Bonhane Ltd" no books
